AWT Stacking Chairs 57

Lecture Hall & Training Chairs (AW / AW-TR) 59

Lecterns (AW-LT) & Console Tables 63

Cinema Seating (AW-CN) 64

AW-CF

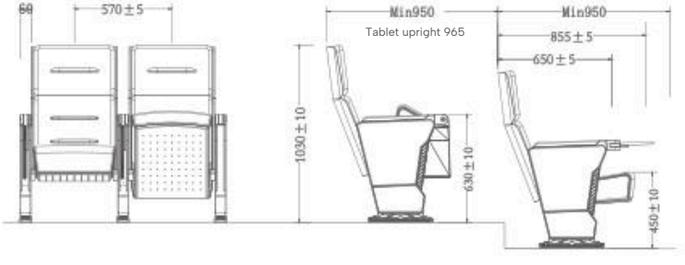

Model: AW-C-SJM

Fabric: contract-grade upholstery fabric
Foam: cold-molded PU foam
Armrest: aluminum alloy with solid-wood top
Outer back panel: hot-pressed curved wood
Writing tablet: ABS engineering plastic
Leg frame: one-piece die-cast aluminum alloy

Dimensions (mm)

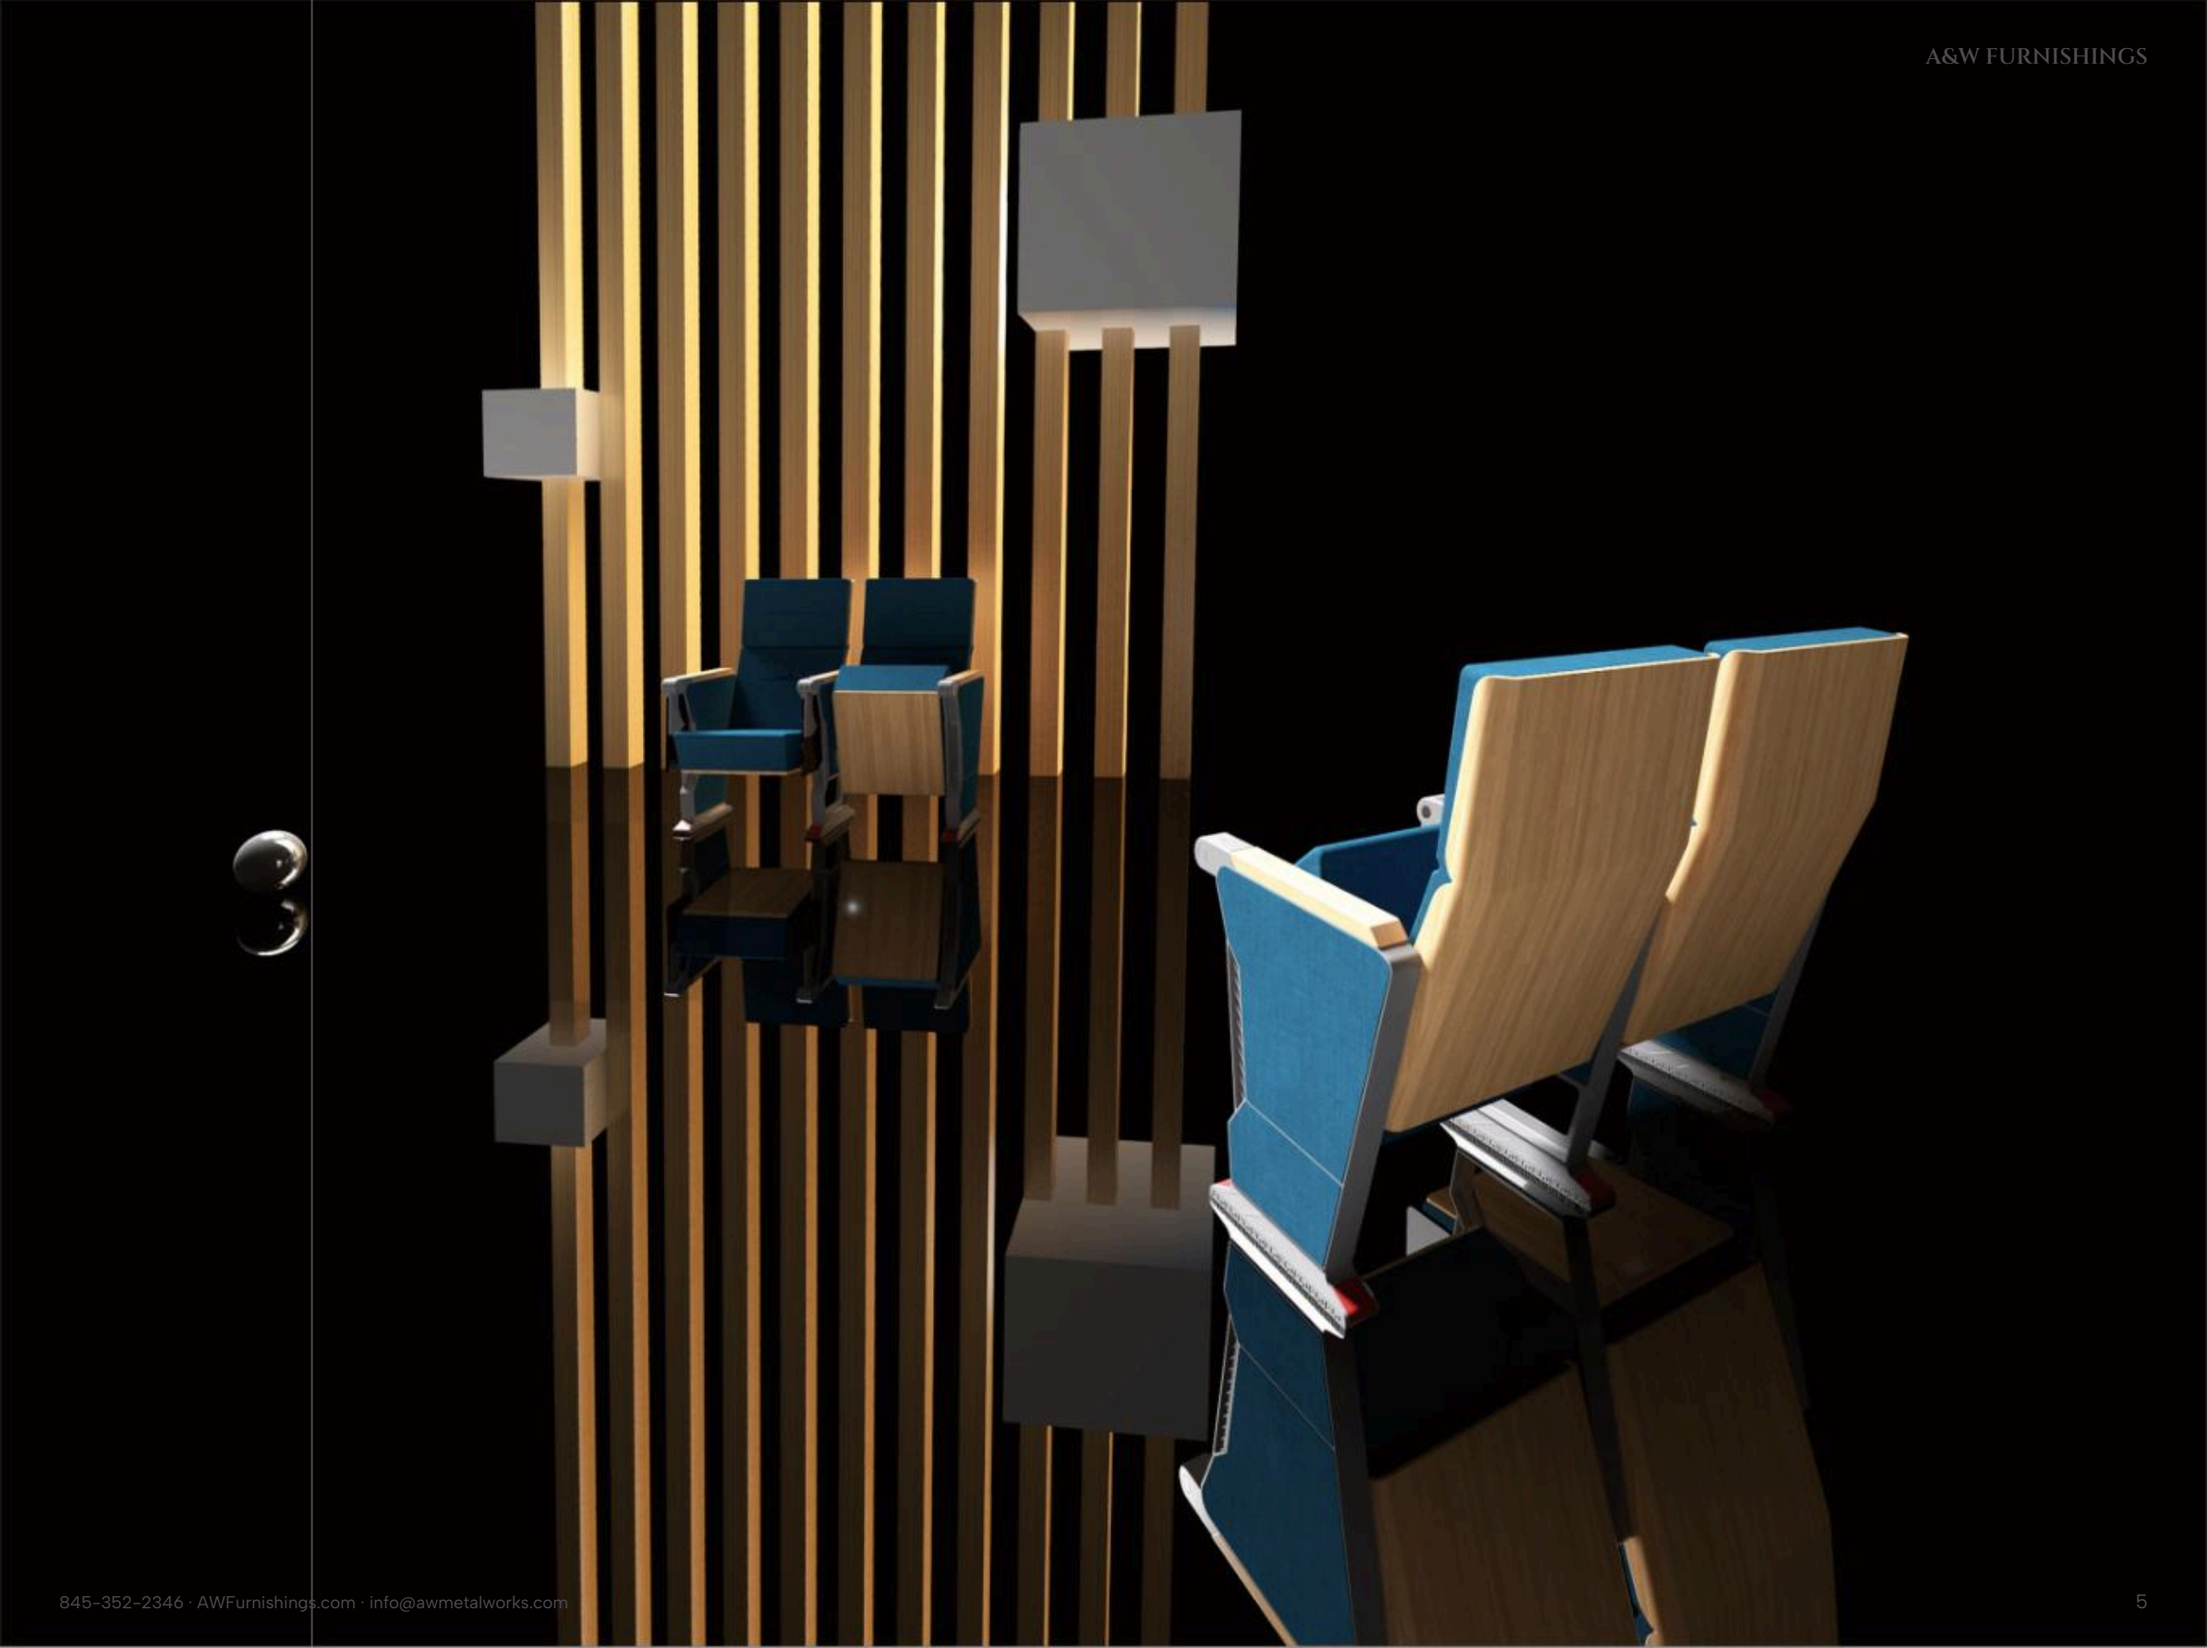

Fabric colors

Model: AW-C-SJM	Seat height: 390 / 420 / 450 mm	Material: steel / high-density board

Model: AW-C-DNJ

Model: AW-C-LBM

Model: AW-C-GPM

Model: AW-C-SXM

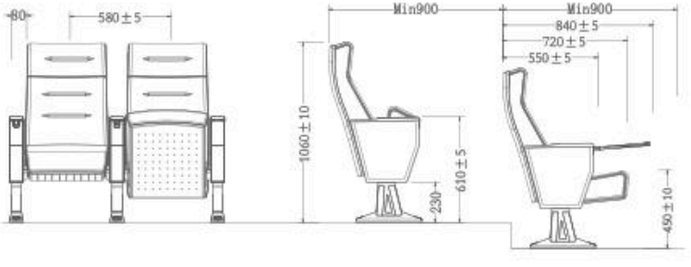

AW-XZ

Model: AW-12#X-DNJ

Popular with architects for its clean design and elegant lines; widely used in conference halls and cultural centers. Split aluminum-alloy leg frame with a simple, elegant look. Seat with soft-return mechanism that returns gently and silently.

Dimensions (mm)

Model: AW-CN-805

Back tilt: laminated back mechanism; comfortable, silent and maintenance-free.
Side panels: plywood, with 5 mm padded fabric cover.
Seat: fixed seat on twin beams joined to a 3 mm stamped steel armrest frame, welded corner reinforcement.
Seat base: 14 mm multi-layer plywood.

845-343-2346 · AWFurnishings.com · info@awmetalworks.com

Model: AW-CN-825

Seat & back foam: high-density cold-molded PU foam, 55 kg/m³; B1 fire-retardant treatment available; keeps its shape in long use.
Back shell: injection-molded PP composite, impact- and aging-resistant, decorative finish.
Fabric: high-quality upholstery, wear- and fade-resistant; stain-resistant or B1 fire-retardant treatment available.
Armrest frame: 2.5 mm steel plate and tube, stamped and welded, then polished, rust-treated, phosphated and powder-coated.
Armrest cover: black injection-molded PP; fabric-covered option.
